Product Data Pack Formats

Tech Data's data packs are not specifically written with any application or software and are produced as TAB (.TSV) delimited files which can be delivered either via a .zip file over email or posted to a specified FTP server. Although not included in the data pack, the column headings for this file are:

Column	Description	Explanation
1	Tech Data Part Code	Tech Data numeric part-code
2	Manufacturer's Part Code	Manufacturers' alpha-numeric part-code. If blank, then ignore entire product
3	Manufacturer Name	
4	Product Description	As used on InTouch and catalogue
5	Trade (resellers) Price	Specific to customer, in currency of customer
6	RRP (if available)	Recommended Retail Price, if one exists. If set to 0 or blank, then it means that the manufacturer has not set an RRP.
7	Currency	Customer currency FOREX code E.g. GBP, IEP, USD, etc.
8	Date Stamp	Date and time of file generation
9	Available Stock Quantity	Stock as of last working day
10	Estimated Stock Delivery Date	Estimated date of delivery to Tech Data where one exists. Only valid if stock shows zero.
11	Sub-Class Classification	The Sub-Class
12	e-Orderable (Y/N)	Not all products can be ordered electronically. Ensure you obey this flag.
13	Manufacturer Product URL (if available)	
14	Tree Class Classification	Tree Class – Menu level 2
15	Blank (for later use)	Blank (for later use)
16	EAN/UPC Part Code	EAN/UPC Part Code (where available)
17	Special promotion price flag	TRUE or FALSE
18	Tree Family Classification	Tree Family – Menu level 1
19	Tree Sub-Class Classification	Tree Sub-Class – Menu level 3
20	HP e-Carepack Flag	Y=e-Carepack; N=Non-e-Carepack
21	Weight	Product weight in Kgs
