

Power PDF Advanced Licensing Partner Program (EMEA)

Welcome to our Power PDF Advanced “Not For Resale”
Licensing program

This means that you are entitled to use our Power PDF Advanced software for free during 1 year to be able to promote our solution to your customers and to use for work in your office or on the road.

In return, we only ask you to pick and choose your preferred marketing activities (promoting Power PDF Advanced) from the following buckets, and then execute with collaboration of Nuance’s designated marketing or partner sales manager:

The number of preferred activities depend on the number of free licenses you have received. Please select the activities based on the below categories and which applies to your company:

All Tiers	
0-9 licenses	1 activity
10-24 licenses	2 activities
25-99 licenses	3 activities
100-199 licenses	4 activities
200+ licenses	5 activities

Please contact your local Nuance marketing or partner sales manager to align these marketing activities. A proof of concept will need to be delivered to Nuance as well. You can find the Free Power PDF order form on our partner portal:
